Our town, Saturday, was a place of solemnity and peace, considering the immense crowd in town. Not more than two or three drunkards were in town. We long wish for the time when the "terrible" shall be entirely abolished from our good old town.

Mr. N. J. Harris, of Greenville, is announced in this issue of the HERALD as a candidate for Sergeant-at-Arms of the next Senate of Kentucky. Mr. Harris was a candidate four years ago and gave way to a Mountain man. We think this portion of Kentucky is entitled to some of the offices of the Senate and Legislature as nearly all of the State offices are filled by men from the middle or eastern portion of the State. Mr. Harris is a gentleman of judgment, ability, and well qualified for the position to which he aspires.

I take this method of informing the taxpayers of Ohio county that their taxes are now due, and have been since the first of June. Those owing their taxes are herein notified to come forward and pay the same. Persons owing back taxes, if not paid immediately, will have their property levied on and sold. One of my deputies will be at each of the Magistrate's courts in September, where persons can have an opportunity to pay their taxes.

C. W. PHILLIPS, Sheriff of Ohio County.

Mrs. George Platt and sister, Miss Katie Hardwick, started in buggy last week to Pleasant Ridge, but had scarcely gotten out of town before their horse became frightened and began to run, tearing the buggy piece by piece as it flew through the air. The ladies remained in the buggy until the hind wheels were broken off, which gave them a chance to extricate themselves from the same. It is a gratification to their many friends as well as a surprise, to learn that they were not hurt.

The ladies of Hartford will give a supper at the court-house on Friday night, August 22nd. The proceeds will be appropriated to pay the deficiency in the salary of the Pastor of the Baptist church. A committee of ladies will be at the court-house during the day to receive the contributions. All are requested to contribute by 3 p. m. No admittance free charged at the door. All are respectfully invited.

Mrs. S. W. ANDERSON, Pres't.

MISS LOGAN WALKER, Sec'y.

The social circles of Hartford for several weeks past have been unusually gay and festive, contributable to a great extent, to the many pleasant young ladies visiting our town this summer. Quite a number of entertainments, parties, &c., have been had, all of which were highly appreciated by those participating. The last of these delightful and enjoyable occasions was that of a dance last Wednesday night, given by the young gentlemen of town at Masonic Hall, in honor of Misses Loula Trille and Josie Landrum, of Calhoun. The night was a pleasant one, which added joy and emotion to those participating in the merry dance. The festivities were prolonged till a late hour, when "balmy sleep, nature's sweet restorer," suggested the hour to depart where they could dream of pleasures past.

Cured of Drinking.

"A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him, by the use of a medicine called Hops Bitters. He was unable to do any business. He was entirely cured by the use of Hops Bitters. He advised all that drinking thirst; took away the appetite for liquor; made his nerves steady, and he has remained a steady and sober man for more than two years, and has no desire to return to his cups. I know of a number of others that have been cured of drinking by it." From a leading Dr. R. Official, Chicago, Ills. 33-2fimes.

Incidents of the Show.

Last Saturday, while the great Trans-Atlantic Show was getting ready to give their afternoon performance, a little boy, son of Wm. Dake, of color, on curiosity bent, climbed up the cage containing the Hyena. No sooner had the little fellow peeped in until the animal snatched his paw and caught him by the ear, tearing off a portion of the same, and put a circle above the ear severing a small artery. He won't attend any shows soon.

In coming from Calhoun to this place Friday night two of their wagons turned over, bruising up one of their men considerably.

A man came in advance of the show and began dealing in some kind of lottery. He was promptly arrested and fined \$100. He sold his horse and buggy, paid his fine and skipped.

As an elegant hair dressing stands Parker's Hair Balsam, deservedly popular for the beautiful hair it produces, and its cleansing and healing properties. Commencing at the roots, it promotes a luxuriant growth of young hair, and unfailingly restores gray or faded hair to the original youthful color, giving a soft, rich and lustrous appearance of great beauty. It is pleasantly cooling to the scalp, cleanses it from dandruff, cures itching and humors, and stops falling of the hair. It is perfectly harmless, especially perfumed, never soils the skin or gums the hair, and pleases everybody by its many excellent and attractive qualities. A patron assures us he has used 12 different hair preparations, but that Parker's Hair Balsam surpasses them all. Sold in large bottles, at only 50 cts. and \$1.00, by Z. Wayne Griffin & Bro., and druggists generally. 33-cw3m

A Source of Much Bodily Evil.

If the habit of body becomes irregular, much evil is inflicted on the system. The stomach becomes dyspeptic, the circulation is contaminated, and the nerves slumber in the general disorder. It is of the utmost importance that the bowels should be thoroughly and speedily regulated when they grow derelict. The corrective agent best adapted to this purpose is Hostetter's Stomach Bitters, a wholesome, non-gripping vegetable laxative, worth all the rasping cathartics invented since the time of Paracelsus. People who have been in the habit of using blue pill, calomel and other drugs and cheap nostrums for constipation, should abandon such hurtful and useless medicines, and substitute for them this pleasant and gentle aperient, which not only produces the purgative effect naturally, but also strengthens while it regulates the bowels, stomach and liver. It moreover cures and prevents intermittent and remittent fevers, gout, rheumatism, debility and urinary troubles. 31-4f

TUTT'S PILLS

are especially adapted to such cases as single dose effects such a change of feeling as to astonish the sufferer.

TUTT'S PILLS

are recommended from authorities that are free from any partiality, but can give the most delicate organization. They cleanse, purify, and invigorate the system, and by their tonic effect, give vigor to the liver, they cleanse the blood of all impurities, and by their tonic effect, give health and vitality to the body, enabling the sufferer to act naturally, without which no one can feel well.

A Noted Doctor says:

Dr. TUTT'S Pills have been sent me by a patient who has been suffering from a Torpid Liver, and has been advised to take them. I find them to be a most valuable medicine, and I have no hesitation in recommending them to all who are afflicted with this complaint. They are worth their weight in gold. J. C. WALKER, Dr.

DR. J. F. HAYWOOD, OF NEW YORK, SAYS:

"You can see that this cannot be a humbug, for the reason that the liver is the most important organ of the human system, and its action is so essential to the health of the body, that it is not surprising that it should be the seat of so many diseases. It is the duty of every physician to see that his patients are kept in good health, and for this purpose, he should use a medicine that will cleanse the liver, and give it a healthy action. Dr. TUTT'S Pills are the best medicine for this purpose, and I have no hesitation in recommending them to all who are afflicted with this complaint. They are worth their weight in gold. J. F. EDUCATIONAL.

EDITED BY W. L. HAWKINS.

Follow teachers, enthusiasm in and the work of teaching, will make the want of other qualifications inapplicable to the cold and unfeeling keeper who uses his position simply as a stepping-stone to a higher employment.

Qualifications essential to growth in vigor. Much can be learned from and something from experience. But life is short, art is long, and human nature is limited. Teachers need to make common capital of their achievements. No other class is association more profitable.

The following, from the American Association of Education, may be considered somewhat out of date, but its importance is thought to be sufficient, even for its appearance, even at this late hour.

Could it not be well for our teachers to show their pupils how to write letters?—how to direct their property?—how to invest money?—how to keep accounts which go to the dead end of the law?—the vast sums we pay in the shape of taxes to sustain this department, if formulated, make a plea for specific information on a date and write and sign and mail a letter or a postal card properly.

A thrifty, intelligent farmer in West and South will see to it that his plows, harrows, and all other necessary implements are furnished the farm by mail. That a profitable crop shall be secured. He works for a profit, but he knows that this can be accomplished by right beginning; hence he cannot expect to be able to get the best of the market unless he is under the most favorable conditions. The workman is a man furnished with necessary tools. A thrifty, intelligent farmer now has been elected a school director in his district. He has children to send to school, who possess powers and capacities that only need to be developed to make them intellectual emblems. Yet this intelligent farmer—the school director, the father of children whose infant years are full of promise—proceeds, at proper time, to make diligent search for a "cheap teacher," which having found, he is too apt to consider his discharged and himself exonerated from further care. The walls of the school house are barren and uninviting. The teacher, having no tools to work with, is unable to interest or instruct the pupils, and his time, as well as theirs, is wasted. Is it not time to turn for a new leaf? To make our schools more beautiful outside, and attractive inside? Let them be supplied with blackboards, maps, globes, and other aids. Let the directors and parents of the schools often, and interest themselves in what is being done. Engage teachers and pupils, and be led that in no other way can true money be expended more usefully.

What shall be done with the children, to enable them to hold on to what they have learned during the last term of school? It is all important that so far as possible subscription schools should be started, and encouraged to let children accept to leave much during long vacation, if they do not actually drift into bad habits and bad associations. It will not cost as much to run a subscription school as it will to take up for what will be lost, unless the plan is adopted.

The Institute helps to make teaching a profession. Public sentiment may be cultivated as to demand and sustain a high standard. Positions tend to become permanent, because teachers continue to grow.

The teacher is isolated. Isolation tends to fossilization. That the teacher grow and keep step to the music of progress, it is necessary for him to meet fellow teachers in earnest council, to submit his plans and practices to a council of criticism.

The people of Elizabethtown—their portion of them—deserve a great deal of credit for their educational zeal; when the question of establishing a school was settled in the negative by popular vote, they went earnestly to work and set them in operation by a public subscription.

By few leading minds have in the quarter of a century remodelled a system upon their peculiar and although their intentions were of the best, the results have been favorable to the best of all aspects of civilization, a sound mind and sound body. The habits and circumstances of our people have changed much during the period to which I refer that we cannot expect to adopt, except in some of their best features, the good old way of our fathers, when mental and physical development went hand in hand; but we can, and we ought in the interest of humanity as well as education, to find and adopt some better method of culture than those which now prevail, or we shall as people rapidly degenerate both in mind and body from year to year, and create a greater necessity for new altitudes and lunatic asylums than that which exists at present, and which are to cost Massachusetts \$1,000,000 the present year. The modern idea of education is to cram the mind with all sorts and kinds of knowledge rather than to train by reasonable supplies of mental pabulum mingled with large quantities of work or play, or what is better, of both combined. —Boston Herald.

The Teachers' Institute convened in the court-house in Hartford, August 5th, 1879. Called to order by the Commissioner. By suggestion of Mr. McIntyre Alfred Ashby, Jr., was appointed Secretary. Proceeded to enrollment of teachers as follows:

After enrollment Dr. Reynolds delivered a lecture on the design of the Institute. The chairman then announced the following committees: The program committee, Dr. J. B. Reynolds, P. E. Hocker, Geo. THIRD DAY'S WORK.

Organization of schools, by Dr. Reynolds. The subjects of grammar, mental arithmetic, algebraic signs, and penmanship, were freely discussed by Dr. M. Hocker, J. H. Harper, Alfred Ashby, Jr., Prof. Burnett, McIntyre, Reynolds and others.

FOURTH DAY.

The fourth day was taken up in discussion of square root, map drawing, etc. Closed by a lecture by Dr. Reynolds on the responsibilities of teachers, which we think to be very concise and beautiful, exhibiting the great knowledge and educational accomplishments of the author.

The following resolutions were offered by Mr. J. R. Hays, which were adopted:

WHEREAS, it has come to the knowledge of the Institute that in counties paying more funds into the treasury of the State than is necessary to pay the teachers of those counties on the pro rata distribution of the school fund, the teachers of said counties receive their pay direct from the treasury of their several counties as soon as due, while in other counties the teachers are compelled to wait until the taxes are all collected and settlements made with the Auditor; and

WHEREAS, we recognize a marked difference between the manner and time of paying the teachers of the different counties, and believing that this should be uniform, and that it is the duty of the State to remedy the discrepancy that now exists.

Resolved, That the teachers of Ohio County be requested to furnish a copy of these resolutions to the Superintendent and also to our Representative, and that our Representative be requested to give his support to such recommendations as in his judgment may be conducive to this end.

Mr. J. H. Harper, for the committee on resolutions, offered the following which were adopted:

Resolved, That the thanks of the Ohio County Teachers' Institute be hereby tendered to Prof. J. B. Reynolds, of New Albany, Ind., for the able, earnest and efficient service rendered in conducting same during its present session, and that we are proud that his great ability is evidenced in such a noble cause as that of education.

Resolved, That the thanks of the Institute be also tendered to Professors Burnett and Dawson, of Auburn, Ky., for their valuable assistance in conducting same.

Resolved, That the thanks of the Institute be especially due, and the same be hereby tendered to Miss Marie Anderson for the sweet strains of music so elegantly discoursed.

Resolved, That the Teachers of Ohio County tender to our worthy Commissioner our sincere thanks for the zeal which he has manifested in the cause of education and for the able and efficient manner in which he has presided over the Institute.

Resolved, That a copy of these resolutions be furnished the Hartford Herald and Ohio County News for publication.
